

# SULFATE-RESISTING CEMENT IS REBRANDING TO LOW CARBON CEMENT

The market for low carbon products is an area of growth and opportunity, so we are rebranding our Sulfate-Resisting Cement as Low Carbon Sulfate-Resisting Cement.

- The cement has the same great performance as before, being suitable for below-ground work
- Order using product code 190099. Barcodes are unchanged
- We have updated the packaging colour to help differentiate from other products in our range
- Updated images for your website can be downloaded from [hanson-packedproducts.co.uk](https://hanson-packedproducts.co.uk)
- **New naming and colour are available NOW and orders for Sulfate-resisting cement will automatically be fulfilled with Low Carbon Sulfate-resisting cement**
